

Country: Italy

For each country, produce a separate document that includes the following sections:

1. How collective bargaining works in this country

- Rules and legal framework
 - Only legally to unions and employers that sign them (no *erga omnes*)
 - NCBA's / CCNLs apply to whole sector
 - DCBA's company / workplace level
- Level of bargaining (sector-level, firm-level, etc.) — use ICTWSS data
 - “Bargaining predominantly takes place at the sector or industry level.” (ICTWSS)

<https://www.eurofound.europa.eu/en/countries/italy/collective-bargaining>

<https://www.oecd.org/content/dam/oecd/en/data/datasets/oecd-aia-ictwss/Italy.pdf>

2. Data availability

- Which period is covered? What is available?
 - Earliest available CBA in CNEL is 1946; latest Feb 2026
 - 1000s of CCNLs available

<https://www.cnel.it/Archivio-Contratti-Collettivi/Archivio-Nazionale-dei-contratti-e-degli-accordi-collettivi-di-lavoro/Contrattazione-Nazionale/Ricerca-CCNL>

3. Existing literature

- Has anyone used this data before? Search Google Scholar for relevant studies or repositories.
 - <https://www.econstor.eu/bitstream/10419/225059/1/1694707881.pdf>
 - Number of CNEL agreements each year
 - “We combine the CNEL contract data with the INPS administrative data using the INPS-CNEL crosswalk provided by CNEL (also used in Daruich, Di Addario and Saggio, 2023; Faia and Pezone, 2024)”.
 - https://www.nber.org/system/files/working_papers/w34076/w34076.pdf

4. Challenges

- What obstacles exist to accessing or using this data?
 - No centralized database for company / territorial agreements
 - Might not be relevant, but “pirate” agreements are non-representative agreements signed by employers and smaller unions or unknown organizations
